Subject: Bus Mechanics

Mr. Thompson,

I am the bus service advisor for Rivers Bus & RV Sales and we are very much in need of mechanics. Who can I contact about getting some graduates and/or students? Our bus manager, Mike McCullough is rather busy and I'm trying to get the ball rolling. We have much more work than we do techs and are in much need of trained technicians. We are also seeking techs for our RV service dept and body shop, perhaps even our AC install shop. Thank you for your assistance.
