

Accounting Technology

Budgets, books, statistics, spreadsheets. Would you be comfortable with any of these terms in your job description? Your career opportunities and potential for advancement in the accounting field multiply greatly with the attainment of this degree. The program prepares you for accounting-related positions in industry, federal, state and local government, and public accounting. Upon completion, you will have a thorough understanding of accounting principles and theory and the ability to apply this knowledge to problem situations.

There are four options within this program:

- **Accounting Technology** A.S. Degree
- **Accounting Technology Management** Technical Certificate
- **Accounting Technology Operations** Technical Certificate
- **Accounting Technology Specialist** Technical Certificate

Students may choose to pursue an A.S. degree and earn technical certificates while completing the requirements for the degree, or pursue one or more certificate programs to develop or upgrade their skills in a particular field. Contact an advisor or counselor to determine the career education path that is best for you.

Accounting Technology (2201)
